A fresh and new modern approach to Progressive Rock. A Guitar oriented CD with influences ranging from Rock to R & B, and from Jazz to Classical.

... "Debut release by the Californian group DEAMBRA, formed by spectacular guitarist Alex Diambrini. 10 songs that take us to a world already explored by YES, GENESIS, MARILLION and ELP but revisited and presented in an extremely modern way. A more than promising debut which showcases the highly technical playing abilities of Diambrini and his classical background. A pleasant surprise for the lovers of Progressive Rock."...

- LA PULCE (ITALY) Weekly music magazine

... "The group of guitarist Alex Diambrini, shows an impeccable professionalism together with incredible feeling and ardor"...
